

SAVE YOU AND YOUR DOG THE PAIN AND TROUBLE OF TOOTH REPAIR!

# CHEW TOY GUIDE FOR DOGS

## PREFERRED

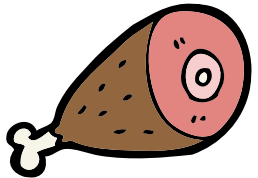

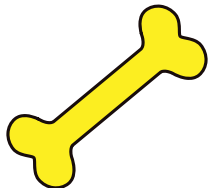

STUFFABLE TOYS LIKE KONG ARE GREAT, BUT MAKE SURE TO MATCH IT TO YOUR DOG'S SIZE. BIGGER IS BETTER, OR YOUR DOG COULD CHOKE.

RAWHIDES ARE FINE IF YOUR DOG ISN'T EATING THEM LIKE POTATO CHIPS. IF SO, SHE COULD GET A GI BLOCK.

## NOT RECOMMENDED

ROCKS, HOOVES, ANTLERS AND NYLON BONES ARE TOO HARD FOR TEETH. IF YOU CAN'T BEND IT OR INDENT IT WITH YOUR FINGERNAIL, IT'S TOO HARD!

REAL BONES ARE TOO HARD, AND BITS & PIECES CAN GET STUCK INSIDE YOUR DOG'S GI TRACT.

BROUGHT TO YOU BY THE DENTISTRY & ORAL SURGERY TEAM AT:

**ANIMAL EMERGENCY & REFERRAL CENTER OF MINNESOTA**

CHEWING IS A HEALTHY ADJUNCT TO DAILY BRUSHING, BUT ASK YOUR VET IF YOUR DOG'S CHEW TOYS ARE SAFE!
